

JUST SAY NO TO ANIMAL ACTIVISTS

Colorado's Wildlife Resources are under attack and it's only the beginning.

WHAT: A citizens' petition has been presented to the Colorado Parks and Wildlife commission to ban the harvest of bobcats in Colorado. It is filled with MISLEADING INFORMATION and INACCURATE DATA.

WHEN: SPRING 2019 (Possibly May, in Grand Junction, CO)

WHERE: Colorado Parks and Wildlife Commission meeting (go to cpw.state.co.us, then to About Us, to Commission Page, then click on Meetings)

WHAT YOU CAN DO:

Write the Parks and Wildlife Commissioners at 1313 Sherman St., Denver, CO 80203 or email at: dnr_cpwcommission@state.co.us

- Urge them to oppose this petition.
- Let them know that Colorado's Wildlife Managers have done a great job, and that science and research should determine how to manage our wildlife.
- Inform them that you are a sportsman/woman, angler, wildlife viewer, etc., and that the North American Model and the mission of CPW should continue to be the foundation that Colorado builds on to manage our wildlife.

WHY: This is not just a bobcat issue. It is a wildlife management issue, an animal rights issue, and a Protectionist vs. Conservationist issue. They won't be satisfied with just bobcats. What will be next?
